

ASTM-F792-08

9 Test Step Wedge Case

The **ASTM F792-08** Step Wedge test object case is used to calibrate and evaluate performance levels of X-ray screening systems in nine distinct test areas using multiple x-ray test pieces.

To meet the need for testing sophisticated X-ray systems, the new **ASTM F792-08** Step Wedge is manufactured to strictly comply with the FAA, TSA, Transport Canada, and DHS requirements.

ASTM = American Society for Testing and Materials
