

MSK 1000

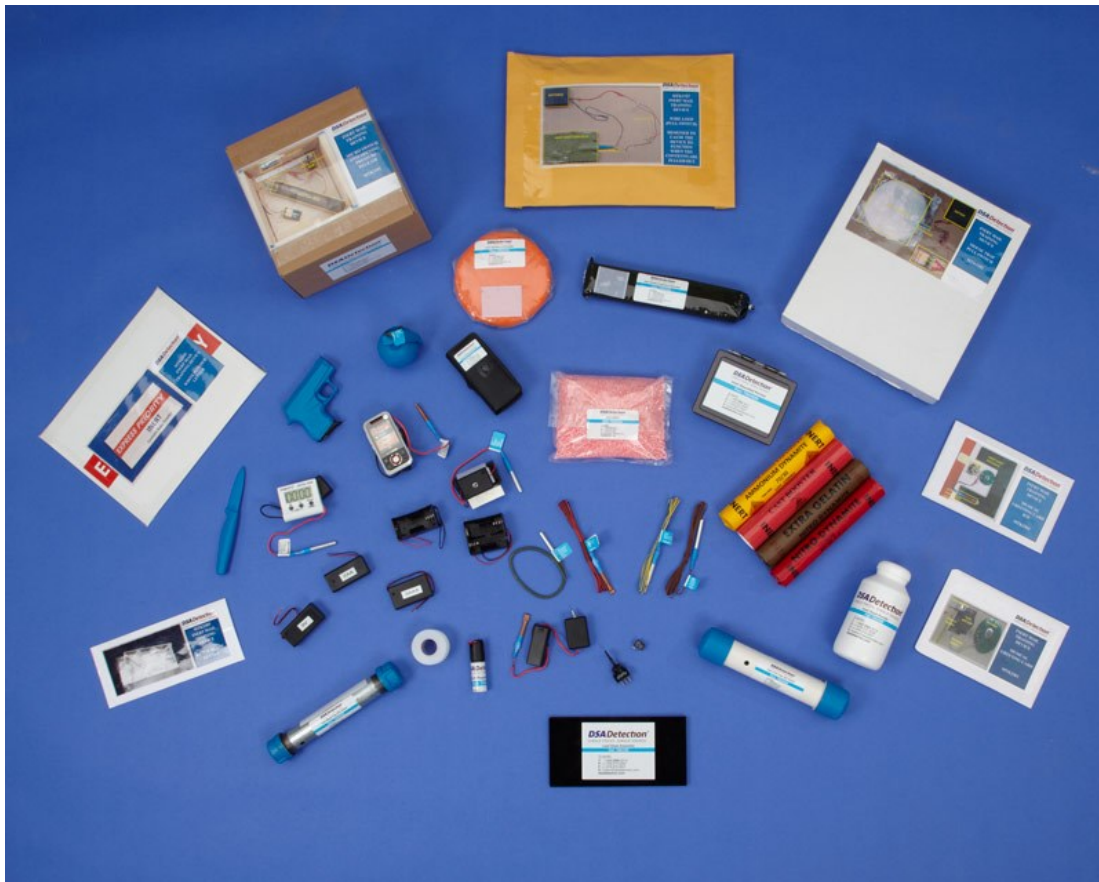

US Marshals Screening Kit

The **MSK 1000** kit contains all types of threats a security officer could encounter at a checkpoint. The kit contains x-ray correct guns, knives, explosives simulants, and IED firing circuits. The kit allows users the ability to build different configurations of IED threats so they can present different scenarios to security officers.

We believe there are no other products on the market that offer the capability and complete functionality of this kit.

Benefits

- Density and Z_{eff} correct
- Simulant will auto-detect on all X-ray and CT systems
- Training aids match threat they are simulating visually and how they respond in screening systems
- X-Ray and Walk-Through Metal Detector Detection
