

ASTM-F792-HP

Human Perception X-ray Test Piece

The ASTM F792-HP Test Object Case is used to calibrate and evaluate performance levels of X-ray screening systems for the human perception based parameters of the new TF792-17e1 standard.

To meet the need for testing sophisticated X-ray systems, the new ASTM F792-HP test object is manufactured to strictly comply with the FAA, TSA, Transport Canada, and DHS requirements.
